

Erasmus+ priorities in Sub-Saharan Africa [Region 9]

Disclaimer: these priorities are to be considered solely within the scope of Capacity Building in Higher Education action, Strand 3, part of the Erasmus+ Programme Guide 2025

Nr.	COUNTRY	SECTOR	DESCRIPTION
1	ANGOLA	Transport	<p>-Green and digital logistics -Road and rail infrastructure</p> <p>Context: Lobito Corridor 1) Upgrade of rail infrastructure connecting Angola and Democratic Republic of Congo (DRC) including one stop border post with DRC 2) Support to infrastructure for the new rail line to Zambia (Angola part)</p> <p>Green and Digital logistics Corridor in Angola This corridor between the ports at Sines and Barra do Dande will contribute to the security of the supply chain in the agri-food sector and support a green energy and critical raw materials supply chain, promoting economic and social development.</p> <p>Rehabilitation of road EN140 between Mussende and Cangandala Project includes planning and construction/rehabilitation of a route section of 98km length including tunnels and bridges, as well as supply with traffic-related systems and materials</p>
2		Climate and energy	<p>Renewable energies (generation, transmission and storage) context: Renewable Energy Energy generation (a) and transmission (b) at the border between Angola and Namibia: (a) Baynes Hydropower Plant Angola (b) Angola-Namibia (ANNA) Transmission Line Energy distribution within Angola</p>

			Solar Park for Rural Electrification Deliver an end-to-end solution for sustainable electrification in Angolan communities across five provinces
3		Education and research	TVET infrastructure and modernisation of agricultural vocational training Upgrading of the infrastructure of TVET centers, modernising/updating the curricula, and improving the governance and territorial integration of the TVET centers
4	BENIN	Transport	Green infrastructure Context: -sustainable ports - Abidjan-Lagos strategic corridor -Rehabilitation of the Allada-Dassa road on the Cotonou-Niamey strategic corridor
5		Climate and energy	Renewable energies, with a focus on photovoltaic Context: Upgrade of large-scale solar power plant and photovoltaic minigrids by the West African Power Pool (WAPP) in Benin
6		Health	Waste water management Context: Treatment plant for waste water in the west of Cotonou Construction of a waste water treatment plant.
7		Climate and energy	Résilience climatique et efficience du transport Contexte: Port de Bujumbura/ infrastructure résiliente aux effets du changement climatique et amélioration du transport des marchandises
8		Agrifood, climate and energy	Chaînes de valeur agricoles (notamment huiles essentielles, fruits à jus, café, avocat) - y compris éventuelle complémentarité avec l'appui aux rapatriés en matière d'accès à la terre
9		Education and research	Éducation fondamentale et formation professionnelle y compris aux réfugiés et rapatriés
10		Health	

11	BOTSWANA	Transport	Trade and transport facilitation context: Strategic Corridors in Southern Africa
12	BOTSWANA, ZIMBABWE	Digital	E-commerce, e-payment and cybersecurity
13	CABO VERDE	Climate and energy	Blue Economy Context: - Harbour infrastructures - Higher education and scientific and vocational training in the area of fishing - Port/maritime security - Global Green Bonds and Sustainable Finance
14		Transport	Energy transition Context: - Interconnection of several islands (more resilient and efficient-energy grid) creating the conditions for off-shore wind energy Mindelo port expansion Rehabilitation of CABNAV shipyard, Mindelo renewable energy power supply, expansion of Porto Novo cruise terminal
15		Digital	Context: Construction of Pump and Storage Facility in Santiago Island inter-related electricity generation, transmission and storage under the country's National Electricity Plan
16	CAMEROON	Transport	Transport Corridors Context : Corridor 5 Libreville/Kribi/Douala-Ndjamena Corridor Douala/Bangui/Kampala - Cameroon/Central African Republic Voie de contournement de Yaounde
17		Climate and energy	Green energy Context: KIKOT hydropower dam

18		Digital	soft measures (TVET, regulatory), support to private sector / digital entrepreneurship, infrastructure facilitation
19		Agrifood, climate and energy	Support to wood/forestry and cocoa value chains
20	CHAD, CAMEROON	Transport	context: Modernisation of the N'Djamena – Douala Strategic Corridor. Rehabilitation N'djamena-Koutere-Moundou corridor and construction of a bridge in Moulkou, weighing stations and resting parking areas, paying attention to gender analysis/mitigation of gender-based violence and promotion of cultural norms.
21	CHAD	Transport	Context: N'Djamena Airport Renovation of the runway at N'Djamena airport Refurbishment of the freight and passenger terminals
22		Climate and energy	Promoting climate resilient natural resources governance, protection and conservation of biodiversity and ecosystem services, and fight against wild-life trafficking
23	Congo Basin Central Africa, West Africa Forests, Sudano-sahelian savannahs of West Africa, Eastern Rift savannahs	Climate and energy	Priority six regions: Congo Basin Forest ecosystems, Transhumance landscapes in Central Africa, West Africa Forests, Sudano- Sahelian savannahs of West Africa, Eastern Rift savannahs and watersheds, Transfrontier conservation areas of Southern Africa
24	CENTRAL AFRICAN REPUBLIC	Health	Soutien aux services sociaux Accès aux services de santé
25		Agrifood, climate and energy	Transition Verte Soutien aux chaines de valeur agricoles

26	COMOROS	Agrifood, climate and energy	Chaîne de valeur de la pêche: soutien à la production / transformation / capacité d'exportation des produits de la mer / sécurité en mer et chaîne de valeur éco-tourisme
27		Transport	Facilitation du commerce et renforcement de la gouvernance portuaire, pour améliorer la compétitivité des entreprises, promouvoir la croissance économique et la création d'emplois Contexte : Port de Moroni
28	COTE D'IVOIRE	Transport	Low-carbon transition Context: Urban mobility (and other transport) - Urban clean transport in Bouaké/Abidjan (linked to strategic corridor) - Rehabilitation of the railway Abidjan-Ouagadougou - Abidjan-Lagos, Abidjan-Dakar
29		Agrifood, climate and energy	Value chains: cocoa, cashew, rubber, palm oil, food crops Context :Business environment: responsible business conduct/due diligence, EU deforestation regulation -Environment: NaturAfrica, deforestation and forest degradation
30		Climate and energy	Low-carbon transition , Renewable energies, including solar energy and storage batteries Context: innovation platform centered on the Taabo hydroelectric scheme, involving full dam and plant rehabilitation, a floating solar power plant, and a storage battery installation. High voltage transmission line (backbone) Construction of a 400kV high voltage transmission line Development of solar power plant in Boundiali and Serebou and extension, reinforcement, and upgrading of networks in Ivory Coast solar power plant in Boundiali, and Serebou. Extension, reinforcement and upgrading of networks. Global Green Bond and Sustainable Finance (green and blue bonds)
31	DEMOCRATIC	Climate and	Harbour infrastructures

	REPUBLIC OF CONGO (DRC)	energy	Context : Extension du corridor Porte of Pointe-Noire/Brazzaville/(Kinsasha)
32		Agrifood, climate and energy	Développement de l'agro-industrie durable (chaines de valeurs intégrées) y compris investissements en énergie et accès à l'eau Investissements production et distribution d'énergie dans les paysages Biodiversité
33		Critical Raw Materials	Critical Raw Materials Context: metals
34		Transport	Rail and road infrastructure , with a focus on green and digital elements context : Lobito Corridor Soutien aux études de faisabilité en vue d'un appui aux infrastructures de connectivité ferroviaires - Opportunités investissement sur les énergies renouvelables, chaines de valeur agricoles, TVET, accès à l'eau, etc. Infrastructures Connectivité (transport, digital, energy) - Corridor Douala-Kampala - Connectivity and telecom towers; Medusa submarine cable; African European Digital Innovation Bridge Network; digitalisation and skills - Interconnector Republic of Congo-Uganda - Transmission line Democratic Republic of Congo-Zambia
35	DJIBOUTI	Climate and energy	Desalination, solar energy and water treatment Context: Doubling the capacity of the desalination plant and construction of a solar energy plant in Djibouti
36	Democratic Republic of Congo (DRC), Zambia, Zimbabwe, Malawi, Mozambique	Digital	Connectivity context: Fibre-optic cables as part of a regional backbone

37	Eswatini	Education and research	Skills for Employability and Entrepreneurship Strengthening the TVET system and supporting the most vulnerable segments of the population
38	ETHIOPIA	Climate, energy and digital	(1) Sustainable agriculture and agro-industry development in coffee and horticulture value-chains, (2) Digital Transformation, (3) Sustainable Energy
39		Transport	Transport and storage facilities for agriculture products Context: cold-storage facility for perishable goods, located at the country's principal inland terminal Modjo Dry with a direct connection to the Addis-Djibouti railway line. competitive and sustainable supply chains to export markets, catalyse the development of a large-scale fruits and vegetables export sector.
40	GABON	Climate and energy	Clean oceans, renewable energies, forest-related value chains Context: Transition Verte (1) Océan propre, (2) Energies renouvelables (3) Chaines de valeur foret (4) Rehabilitation du chemin de fer Transgabonais
41	GAMBIA	Transport	Harbour infrastructure Context: Rehabilitation and expansion of Gambia's national port infrastructure located in Banjul.
42		Climate and energy	Promoting green economy through waste management and water/sanitation; and building social and climate resilience to continue supporting the country stability
43	Capo Verde, Côte d'Ivoire, DRC, Gambia, Guinea, Guinea Bissau, Ghana, Liberia, Togo	Digital	Submarine cable, satellite connections and data centre, rural digital connectivity and digital entrepreneurship, e-governance
44	SUB SAHARAN AFRICA and special focus in	Health	Manufacturing and Access to Vaccines, Medicines and Health Technologies to boost local manufacturing capacities in Africa and to strengthen pharmaceutical systems to increase equitable

	Ghana, Rwanda, Senegal, Nigeria and South Africa		access to safe, effective, quality and affordable essential vaccines, medicines and health technologies for all Africans
45	GHANA	Climate and energy	<p>Renewable energies, with a focus on solar energy</p> <p>Wastewater treatment</p> <p>Context: Solar power plant Kaleo</p> <p>Smart and sustainable cities and energy</p> <ul style="list-style-type: none"> - Sustainable cities: Kumasi or Tema wastewater treatment plant and specific focus on the North - Energy: <p>Smart meter and grid reinforcement of the Northern Electricity Distribution Company Ghana-Côte d'Ivoire interconnection line, and Solar power generation for distribution to the West Africa Regional Grid - Ghana</p>
46		Transport	<p>Construction and rehabilitation of irrigation systems</p> <p>Context: Rehabilitation feeder and farm roads Rehabilitation and construction/rehabilitation of irrigation system (dams, boreholes and pumping stations) in Northern Ghana</p>
47		Agrifood, climate and energy	Agriculture: Biodiversity and land use and cocoa
48	GUINEA BISSAU	Health and energy	<p>Health infrastructure to capitalise previous investments in the sector: Water, Sanitation, and Hygiene</p> <p>Renewable energy-solar panels</p>
49		Agrifood, climate and energy	<p>Transition towards green and blue development</p> <p>Key value chains (fisheries, rice, cashew nuts)</p> <p>i) support to the agribusiness development, and</p>

			ii) TVET offer and applied research to accompany the agro-ecological transition and natural resources management
50		Transport	Roads Context: Rehabilitation of the road Bissau/Safim – Sao Domingos-Mpack-Senegal border (Ziguinchor)
51	GUINEA	Climate and energy	Environment Protection of Guinea's rivers (restoration of springs/major rivers and reforestation) Transboundary water management Energy, with a focus on electrification context: i) peri urban distribution in Forest Guinea, ii) transport line Maneah-Matoto, iii) transport line Labe-Mamou. H Potential studies: Grand Kinkon hydropower scheme; Diaoya hydropower plant; Sambangalou dam pumped-storage scheme).
52		Agrifood, climate and energy	Agriculture/Value Chains Further support to private sector including through vocational training to enhance youth employability (focus on value chains infant food, fonio, fruits -mango, pineapple- and cashew nuts)
53	KENYA	Transport	Transport and trade facilitation to improve regional connectivity and trade. Context: Construction of Bus Rapid Transit system in Nairobi Northern corridor, linking Kenya to neighbouring Uganda, Rwanda, Burundi and the Democratic Republic of Congo.
54		Climate and energy	Green energy production and distribution; green trade and investment
55		Digital	Digital for human, including TVET, digital skills, cybersecurity and e-governance
56	LESOTHO	Climate and energy	- Renewable energy supply - Water supply and sanitation

57	LIBERIA	Climate and energy	Forests i) Governance of the sector along with the wood value chain ii) Sustainable management of forests and land use combined with conservation and biodiversity protection iii) Promote climate and environmental financing opportunities
58		Agrifood, climate and energy	Agriculture and Fisheries Value Chains (rice, fish, cocoa)
59	MADAGASCAR	Climate and energy	Preservation of terrestrial and marine landscapes Context: Set-up of hydro-agricultural infrastructures, rehabilitation/building of rural roads and 3,300 hectares of irrigated perimeters, with a gender and human rights-based approach aiming to foster women's empowerment. Renewable and sustainable energy, with a focus on hydroelectric production and rural electrification Context: Strengthening on ongoing actions, such as the construction of large hydroelectric dams and their connection to urban centres and rural electrification.
60		Education and research	Improving the Vocational and Technical Education system Support to the socio-professional integration of young women with a focus on the needs of the labour market in a gender perspective
61		Health	Supply and distribution of medicines and medical equipment at a decentralised level context: Salama - central drug purchasing supply and distribution of medicines and medical equipment for public hospitals and dispensaries in Madagascar
62		Agrifood, climate and energy	Développement des filières agricoles d'exportation, notamment noix de coco, huile de pépins de cactus, pêche, canne à sucre

63	MALAWI	Climate and energy	Power transmission grid analysis Context: Eastern Backbone Power Transmission grid upgrade
64	MAURITANIA	Digital	Connectivity Context: Data centre in Nouakchott and submarine cable
65		Transport	Construction of infrastructure and creation of integrated development hubs as part of developing the blue economy
66		Climate and energy	Development of energy infrastructure with a focus on green hydrogen : Context: - High voltage power line connecting Nouakchott-Kiffa and Kayes; Extension of solar power plant in Kiffa; Extension of solar power plant in Nouakchott - Energy/Green hydrogen, including major green hydrogen related infrastructure, in particular ports, roads, and energy and possibly professional training, improvement in the business climate/private sector - Nouakchott-Nouadhibou Road
67		Agrifood, climate and energy	Development of blue economy, with a focus on maritime and land port infrastructure, governance and regulation of the fisheries sector, TVET, private sector and port security
68		Health	Support the introduction of universal health coverage
69	MAURITIUS	Climate and energy	Develop the circular economy, renewable energy, environmental protection, costal erosion, or biodiversity management
70	MOZAMBIQUE	Climate and energy	Improvement of the reliability and sustainability of the power supply, enhancement of the capacity of the grid and contribution to the digital transformation of the electricity sector Context: Construction of National Control Centre for Energy Infrastructure for monitoring and controlling the transport of electricity in the country

			<p>Coastal Protection Context: The coastal city of Beira in Mozambique is vulnerable to coastal erosion, tropical storms, sea-level rise, coastal and urban floods and extreme rainfall events.</p> <p>HydropowerContext: modernisation Mphanda Nkhuwa Hydropower Dam and transmission line PROLER 2, a solar and wind power project introducing transparent and competitive auctions. Mini-grids, support to development and operation of mini-grids by private sector in rural area Interconnection Southern African Power Pool</p>
71		Education and research	Focus on digital ecosystems, digital literacy and skills for youth, particularly for girls and those living in vulnerable situations, as well as digital start-ups
72		Digital	<p>Modernisation of the fiber optic network, focusing on trust, high capacity, and resilience, connecting major cities and extending resilient regional links across Southeast Africa</p> <p>context: Regional fibre optic infrastructure Middle & last-mile connectivity</p>
73	NAMIBIA	Climate and energy	<p>Raw materials value chains Renewable hydrogen Solar power</p> <p>Context: Construction of 85 MW solar PV plant combined with electrolysers raw materials value chains and renewable hydrogen in Namibia Inclusive Green Growth</p> <ul style="list-style-type: none"> - Solar Plant and Green Hydrogen Storage IPP in Walvis Bay region - Hyphen – Southern Corridor - Construction of a solar park close to Rosh Pinah
74	NIGER	Climate and energy	<p>Expansion of the energy grid Solar power</p> <p>Context: Construction de centrales hybrides et solaires et extension du réseau de l'énergie Centrale photovoltaïque Gorou Banda ; Centrale hybride d'Agadez ; Dorsale Nord d'Interconnexion Nigéria – Niger – Bénin – Burkina Faso</p>

75	NIGERIA	Climate and energy	<p>On grid renewable energy Context: Generation and evacuation infrastructure for on-grid renewable energy hydropower for SME/MSME in the agricultural sector (, public health care facilities electrified with solar micro-grid.</p> <p>Construction of small PV-hybrid mini-grids The mini-grids are expected to directly benefit about households and SMEs, providing initial electrification or substituting polluting and more expensive diesel-generated electricity supply.</p> <p>Jigawa Solar PV alternative (public-private) scheme to the exclusively private solar development that is struggling to make headway in the country.</p>
76		Agrifood, climate and energy	<p>Supporting youth entrepreneurship in the agri-food sector Connecting renewable energies and the agri-food sectors</p> <p>Context: Provision of combi-tracks solar energy and horticulture in Nigeria Support to young people in setting up their own business in the agri-food sector or finding a suitable job. Combi-tracks solar energy and horticulture, bringing together aid, trade and investments and also connecting renewable energy and agri-food</p>
77		Education and research	<p>Enhancing agricultural colleges, technical colleges, and agri-related vocational institutions, with a focus on improving training quality and employment transition, particularly empowering girls and women.</p> <p>Context: Rehabilitation and equipment of TVET, training institutions in Benue, Plateau and Oyo States</p>
78		Transport	<p>Construction/upgrading of water transportation, promoting gender actions and the use of the inland water transport system by women, the disabled, elderly, children, through better accessibility, safety and comfort</p> <p>Context: Lagos Inland Water Transport</p>
79		Digital	<p>Support Nigeria's digitalisation with infrastructure upgrades, public service digitisation, tech start-up support, digital skills training (focusing on youth and women), and robust digital governance</p>

			for privacy and cybersecurity. Digital and Green Transition for Youth Employment
80	REPUBLIC OF CONGO	Transport	Harbour infrastructure Context : extension du corridor 6 Port of Pointe-Noire/Brazzaville (Kinshasa)
81		Climate and energy	Transition verte Infrastructures améliorées dans les villes secondaires : énergies renouvelables/WASH/assainissement Soutien aux chaînes de valeurs forêts/bois – augmentation des exportations avec haute valeur ajoutée
82	RWANDA	Health	Support education and professional training in the health sector, establish the pharmaceutical and biotechnology sector Context: the Rwanda Food and Drug Authority (FDA)KWIGIRA Programme as well as a Quality Control Lab at the Rwanda Food and Drugs Authority (RFDA)
83		Agrifood, climate and energy	Climate-Smart Agriculture, Climate Resilience in rural areas and Agriculture value chains; Critical Raw Materials and automotive value chains
84		Transport	Railway infrastructure Context: Railway Corridor, Interconnector Rusizi III-Karongi
85	Rwanda, Tanzania, Uganda, Zambia	Critical Raw Materials	sustainable raw materials value chains
86	São Tomé and Príncipe	Agrifood, climate and energy	Green Transition Agricultural value chains - high added-value exports, improvement of cooperative infrastructures, regeneration, etc.
87		Climate and energy	Renewable energy

88	SENEGAL	Transport	Harbour infrastructure and management Context: Construction of Bus Rapid Transit system (BRT) in Dakar - Dakar Public Transport Network (réseau bus au gaz) Upgrade and operation of the port of Ziguinchor Enhance port access, upgrade facilities to meet international secondary port standards, relocate fishery activities to a dedicated port, maintain the access channel (river), and provide technical assistance to port management and staff
89		Climate and energy	Wastewater treatment Irrigation Renewable energies Context: Cleanup of Hann Bay (Dakar) Wastewater treatment plant and the pre-treatment of the waste from the most polluting industries along the Bay Irrigation Just Energy Transition
90		Agrifood, climate and energy	Green Deal Energy, Agriculture/Value Chains, Green Cities
91	SOMALIA	Digital	Submarine cable/ Terrestrial cable investment
92		Agrifood, climate and energy	Food systems: Multiple-use water sources, renewable energy and key water infrastructures
93	SOUTH AFRICA	Climate and energy	-Decarbonisation of the economy -Renewable energies, with a focus on green hydrogen and photovoltaic energy Context: Just Energy Transition to accelerate the decarbonisation of South Africa's economy Renewable Energy/Green Hydrogen Value Chains

			South Africa/Namibia Hydrogen Solar Photovoltaic+ hydrogen storage Independent Power Producer Mpumalanga
94		Digital	Cybersecurity Context: Implementation of Time Synchronization System to improve cybersecurity level of national Air Traffic and Navigation Service Supply, Delivery, Installation, Commissioning, Maintenance, And Support of Global Navigation Satellite System/ Global Positioning System Network Time Protocol Time Clock Synchronisation System
95		Critical Raw Materials	Critical raw materials value chains New energy vehicles, such as batteries value chains Context: identification of mining/refining projects along the Durban corridor/platinum valley
96		Transport	Harbour and road infrastructure Context: Strategic North-South corridor (Durban-Lusaka-Lubumbashi) - Port Container Terminal Durban - N3 Road to Rail - Digitalisation of Durban Community system, blended finance - Transnet hydrogen new export terminals (Cape Town, Durban, Saldanha Bay etc.) - North South Corridor Rail block train service
97	South Africa, Botswana, Zimbabwe, Zambia and Democratic Republic of Congo	Transport	Context: Strategic North-South corridor (Durban-Lusaka-Lubumbashi)
98	South Africa and Namibia	Climate and energy	Green hydrogen development Context: Financial Platforms for Green Hydrogen Develop the countries' green hydrogen economy by streamlining access to public and private

			capital, linking finance to policy decisions, reducing transaction costs and accelerating high-quality project development
99	South Africa, Mozambique, Uganda	Climate and energy	Biogas production from treatment of various waste types
100	SOUTH SUDAN	Agrifood, climate and energy	Rural infrastructure and support to livelihoods/ food security (value chains fruits/vegetables/gum arabic) in rural areas
101	TANZANIA	Critical raw materials	graphite and nickel
102		Climate and energy	Renewable energies, with a focus on hydroelectric energy Water management and sanitation
103		Agrifood, climate and energy	Agriculture (cereal, avocado and horticulture)
104		Transport	
105		Digital	Digital infrastructures, devices and green data centres Context: Establishment of regional hub for satellite with connectivity and use of data
106	Tanzania, Madagascar	Digital	Investments in mobile networks covering rural areas, schools, hospitals, government sites, thus fighting the digital divide and bridging inequalities
107	TOGO	Climate and energy	Coastal protection Renewable energy, with a focus on hydro power Context: Coastal protection Togo by using nature-based solutions in the form of dune restoration and sand suppletion. Tététou hydropower and rehabilitation of existing hydro power plants and hybridisation of the

			Nangbeto dam Medusa extension and Djoliba regional backbone + regulation, e-governance and cybersecurity
108		Agrifood, climate and energy	Sustainable Agro-Business, Environmental and Biodiversity Protection
109	UGANDA	Transport	Infrastructure connectivity
110		Climate and energy	Forestry value chains
111		Agrifood, climate and energy	Value Chains (Cocoa, Coffee, Tourism and Horticulture), Critical Raw Materials
112	ZAMBIA	Transport	Rail infrastructure Context: Lobito Corridor Feasibility Study, Railway construction between Chingola-Jimbe-Luacano, Zambia Railways rehabilitation
113		Critical Raw Materials	Critical Raw Materials Partnership
114	Zambia and Zimbabwe	Climate and energy	Water/dam management Context: Arch dam rehabilitation across the Zambezi River between Zambia and Zimbabwe
115	ZAMBIA, DEMOCRATIC REPUBLIC OF CONGO	Climate and energy	Electricity infrastructure Context: Construction of a high-voltage direct current (HVDC) 330kV transmission line to enhance the stability of both the Zambia Electricity Supply Corporation Limited and National Electricity Company

			networks
116	Zambia, Angola, Democratic Republic Congo (DRC)	Transport	Development of transport infrastructure Measures to facilitate trade, economic development and transit Context: Lobito Corridor Cooperation in transport infrastructure investments; measures to facilitate trade, economic development and transit; and support to related sectors to fuel inclusive and sustainable economic growth and capital
117	Zambia, Tanzania, Kenya	Climate and energy	Energy interconnector Context: Construction of a double circuit 400 kV line from Pensulo to the Zambia Tanzania Border to enhance regional integration and foster economic development
118	ZIMBABWE	Climate and energy	Key agri-value chains (horticulture, grains) and renewable energy Context: Support to two key agri-value chains (horticulture, grains) and renewable energy
119	Gabon, Burundi, Cameroon, Congo, Democratic Republic of Congo (DRC), Central African Republic, Uganda, South Sudan, Rwanda	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
120	Chad, Central African Republic, Nigeria, Cameroon	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all

121	Burkina Faso, Guinea Conakry, Sierra Leone, Liberia, Ivory Coast, Nigeria	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
122	Burkina Faso, Benin, Mali, Niger, Togo, Ghana, Senegal, Guinea	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
123	Kenya, Ethiopia, South Sudan, Uganda, Tanzania	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
124	Botswana, Zambia, Zimbabwe, Namibia, Malawi, Mozambique, Angola, South Africa	Climate and energy	Biodiversity conservation in Africa, with identification of key landscapes for conservation and development Context: Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
125	SUB SAHARAN AFRICA	Digital	Data governance, e-services and data infrastructures for the benefit of research and education communities Broadband mapping in Sub-Saharan Africa

			<p>Context:</p> <p>Support the African Union Commission, Regional Economic Communities (RECs), as well as their Member States in developing data policy frameworks building on the AU Data Policy Framework, developing data use cases to showcase the value of data, and supporting the identification of investments.</p> <p>Scaling up of support to Regional and National Research and Education Networks (RRENS-NRENS) in the acquisition of high-speed digital connectivity networks, e-services and data infrastructures for the benefit of research and education communities.</p> <p>Support the Implementation of the Digital Transformation Strategy (DTS) for Africa 2020-2030 at continental level, establishing conducive regulations that promote regional convergence for affordable, secure, reliable and high-speed connectivity infrastructure and services; and supporting harmonized broadband mapping systems in Sub-Saharan Africa.</p>
126	SUB SAHARAN AFRICA	Health	<p>Digital health services</p> <p>Sexual and reproductive health rights</p> <p>Reinforcement of capacities for national public health institutes, public health research, public health workforce training and advocacy</p> <p>Accelerate health systems strengthening and the achievement of universal health coverage through digital health initiatives.</p> <p>Strengthen regional mechanisms to address supply-side constraints and improve access to quality assured SRH-commodities, notably by improving supply chain management systems.</p> <p>Enhance collaboration and capacity of National Public Health Institutes, public health research, knowledge and information gathering that drive evidence-based policy advice, public health workforce training, and advocacy.</p>
127	SUB SAHARAN AFRICA	Climate and	<p>Biodiversity conservation in Africa, with identification of key landscapes for conservation and</p>

		energy	development Support to biodiversity conservation in Africa, identify key landscapes for conservation and development to create jobs, improve security and sustainable livelihoods, while preserving the ecosystems and wildlife that are vital to all
128	SUB SAHARAN AFRICA	Transport	Development, production and use of sustainable aviation fuels globally, contributing to the attainment of International Civil Aviation Organization's goal of net-zero emissions from international aviation by 2050
