

Regional - Central America

- Launch of the Digital Trade Platform (PDCC) to facilitate trade and promoting interoperability of national systems with the Secretariat for Central American Economic Integration

Regional - Caribbean

- Addressing the threat of the sargassum algae plague by developing sargassum value chains

Regional - Central America and Amazon basin

- Sustainable forest management and bioeconomy: launch of Amazon Basin TEI, Amazonia+ programme, Guyana/Suriname Forest partnership TEI, and the Five Great Forests of Mesoamerica initiative

Regional - LAC

● Digital Alliance

- Extension of BELLA cable to Central America and the Caribbean countries
- Regional policy dialogue on cybersecurity, connectivity, e-governance and data governance
- Establishment of two regional Copernicus centres in Panama and Chile
- EU-LAC Digital Accelerator: supporting joint ventures between EU and LAC innovative start-ups, SMEs and corporations
- Deployment of 5G infrastructure to foster digital transformation

● Sustainable Aviation Fuels

Supporting the development, production and use of sustainable aviation fuels

● Global Maritime Technology Cooperation Centres: phase 2

Achieve the energy-efficiency and greenhouse-gas targets of the International Maritime Organization

● Health resilience

Partnership on health resilience and equitable access to health products, including vaccines

● Social cohesion

- Stronger linkages among academia, research and business, better responding to education, innovation and labour market needs
- Partnerships to reduce inequalities and reinforce social policies, accountable public institutions, and inclusive investments to foster just transitions

● Digital ● Climate and Energy ● Transport ● Health ● Education and Research

This infographic is designed to facilitate the visualization of Global Gateway Flagship Projects targeting Latin America and Caribbean and should be viewed in conjunction with the [comprehensive infographic for the EU-LAC Global Gateway Investment Agenda](#), which was created on the occasion of the EU CELAC Summit 2023.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology (i.e. the D4D Hub and its regional branches). The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the EU.

EU-Latin America and the Caribbean flagship projects

Mexico

- Industrial parks, renewable energy, value chains for development of solar plants, electric vehicles, battery production and water systems
- Establishment of a trade route between Mexico and the EU for energy and other products
- Health resilience and vaccine production

Honduras

- Rural development and productivity

Haiti

- Construction of a Technical and Vocational Education and Training (TVET) school

Dominican Republic

- Support the development of the green bond market in LAC and access to finance
- Integrated water and solid waste management
- Expansion and upgrade of Santo Domingo's urban transport

Barbados

- Energy transition through green hydrogen storage
- Reduce chronic water shortages and improve wastewater systems
- Development of vaccine production, health systems resilience and digital transformation of health facilities

Guatemala

- Social and economic green transition around Lago Petén-Itza

Costa Rica

- Support development of green bonds market and access to finance
- Electrification of public transport (trains and buses)
- Accelerating pharma manufacturing by focusing on an adequate legal frameworks, human talent and e-health

Jamaica

- Renewable energy production
- Support the development of the green bond market

Panama

- Establishment of a Regional Copernicus Centre in Panama City, 100% Digital Coverage, digital business, innovation and education ecosystems
- Energy Transition: power generation, universal access, energy efficiency and sustainable mobility, Green Hydrogen
- Regional Innovation for Centre Vaccines and Biopharmaceuticals fostering innovation for vaccines and biopharmaceuticals

Guyana

- Implementation of the Forest Partnership and VPA FLEGT

Trinidad and Tobago

- Promoting energy transition through renewables

● Digital ● Climate and Energy ● Transport ● Health ● Education and Research

EU-Latin America and the Caribbean flagship projects

Ecuador

- Infrastructure electricity transmission in Ecuador-Peru. Strengthen regional energy integration of the Andean Electricity Interconnection System
- A Green Deal for Ecuador: innovations and investments at decentralised level, including water and sanitation
- Forest Partnership to promote bioeconomy and trade

Colombia

- Electrification of social infrastructures in remote rural areas
- Paz Total Connectivity: increase internet connectivity to connect 85% of Colombians by 2026
- Development of taxonomy for green economic activities
- Green hydrogen production and renewable energy
- Waste water management "Planta de tratamiento de aguas de Canoas"
- Nature based solutions for climate change adaptation
- Urban climate resilience

Brazil

- Green Amazon/Amazonia Verde to reduce the digital divide, provide connectivity to local education and healthcare services and protect the rainforest
- Implementation of the Team Europe-Brazil Tropical Forests Initiative and Amazonia+ programme to prevent deforestation, promote sustainable bioeconomy and traceability of supply chains
- Development of capacities for overcoming rural hunger and extreme poverty (Project Paulo Freire II)
- Construction and operation of port infrastructure
- Modernisation of water and sewage

Peru

- Team Europe Initiative: Circular Economy and value chains
- Expansion of Lima International Airport
- Financing the extension of of the metro line 2 in Lima
- Safe drinking water and sustainable water management in urban areas

Bolivia

- Urban Areas Integral Water Management Programme and Water and sanitation programme for rural communities, medium and small cities

Chile

- Establishment of a Regional Copernicus Centre in Santiago
- Local value chains for Critical Raw Material
- Development of renewable hydrogen, Global Gateway Renewable Hydrogen Fund

Paraguay

- Water and sanitation project in the Lambaré watershed

Uruguay

- Deployment of 5G connection to foster digital transformation
- Production of renewable hydrogen and adaptation of Montevideo Port infrastructure

Argentina

- Green hydrogen
- Expansion and modernisation of the electricity transmission network
- Developing the sustainable lithium value chain in the Salta and Jujuy provinces
- Development of Norte Grande region - territorial planning, forestry management, sustainable farming, and climate change
