

EU-Trinidad and Tobago: Country project examples

#GlobalGateway #TeamEurope

January 2024

CLIMATE & ENERGY

- Facilitate shift from grey to green hydrogen through a transition to renewable energy (off-shore wind and solar)
- Turn Sargassum algae from a threat to an economic opportunity (e.g. biofuel, water purification, agriculture)

TRANSPORT

Improve maritime connectivity in the Caribbean to foster regional integration, economic growth, and food security.

DIGITAL

Support the digital transition, including e-IDs.

HEALTH

Security of water supply, wastewater collection and treatment, storm-water management, flood prevention, coastal protection and solid waste management.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
