

# EU-Mauritius: country projects

#GlobalGateway #TeamEurope

April 2024

## TRANSPORT

Supporting the rehabilitation of the airport in the island of Rodrigues, including the expansion of the airstrip. The rehabilitation is coupled with the EU-supported Sustainable Integrated Development Plan for Rodrigues (SIDPR), which aims to manage the socio-economic transformation that the new airport could bring and ensure the environmental protection of the area.

## GOOD GOVERNANCE

Supporting a sound, accountable and transparent institutional framework by 2030.

## CLIMATE

Assisting the country in implementing the Circular Economy Roadmap and Action Plan via 2 Specific objectives:

- to build key foundations for Circular Economy development
- to improve solid waste management, notably in relation to the construction and demolition sector prioritised by the Ministry
