

EU-Africa flagship projects for 2023

Partnerships on Digital, Climate and Energy, Transport, Health, Education and Research

#GlobalGateway #TeamEurope March 2023 **Egypt** Regional - Central and Regional - Southern Neighbourhood - Medusa cable Construction of a **Eastern Africa - Renewables** Medusa submarine optical fibre cable in the Mediterranean will high-voltage undersea Construction of Ruzizi III hydropower connect Northern African countries with European countries to electrical interconnection increase the speed of internet in Northern Africa universities. plant for DRC, Rwanda and Burundi. between Egypt and Greece Modernisation of the Alexandria Area Control Centre Morocco ····· Tunisia Production of Methanol for Extension of 37 km of the green shipping Construction of hybrid and Construction of a first tramway network in the Rabatsolar power plants and undersea high-voltage Salé-Témara agglomeration electricity cable extension of the energy Construction of hydrogen interconnection (ELMED) network: power plant between Italy and Tunisia Construction of Bus Rapid photovoltaic power plant Production of methanol for Transit system in Nairobi Gorou Banda (30 MW) green shipping Construction of optic fibre · hybrid photovoltaic plant in infrastructure and last mile **Democratic Republic** Agadez (19 MW) Mauritania connections of Congo North backbone of the Construction of data centre in Nigeria - Niger - Benin - Strategic partnership Nouakchott and submarine **Burkina Faso Interconnection** on critical raw materials Djibouti cable (330 kV) being explored Doubling the capacity of the desalination plant, construction Senegal of a solar energy plant Construction of Bus Rapid Djibouti airport development Transit system in Dakar project Development of Dakar Bus **Public Transport Network** Regional - Sub-Saharan Gambia Africa - Health Expansion & rehabilitation of Manufacturing and access to Port of Banjul vaccines, medicines and health technology products in Senegal, Rwanda, Ghana and Cape Verde South Africa. Construction of Pump and Storage Facility in Santiago Namibia Construction of 85 MW solar Guinea Bissau ····· PV plant combined with Rehabilitation of the road Bissau electrolysers / Safim - Sao Domingos - Mpack • Implementation of partnership - Senegal border – 115 km on raw materials value chains and renewable hydrogen Côte d'Ivoire Burundi Development of solar power plant in Boundiali, Serebou and Improving access to electricity Kossou in Bujumbura Extension, reinforcement and upgrading of networks Madagascar 320 MW increase of renewable energy production with various Benin subprojects Rehabilitation Allada-Dassa road **Tanzania** • Upgrade of large-scale solar Construction of Kakono power plant and photovoltaic Hydropower Plant miniarids by the West African Power Pool (WAPP) Mozambique Construction of National Nigeria Zambia Cameroon Control Centre for Energy Generation and evacuation Rehabilitation of the Infrastructure, improvement Construction of Yaounde infrastructure for on-grid Kariba Dam to minimise of the reliability and bypass renewable energy projects e.g the risk of failure sustainability of the power 200MW of power from a solar supply photovoltaic park Republic of Congo Invest on digital literacy South Africa Angola and skills for youth to foster Construction of six small Extension and upgrading of • Establishment of a green and Expansion of a biogas plant digital transformation hydropower plants of a total of the infrastructures of the digital corridor between the (Bio2Watt project) producing (VaMoz Digital) approximately 2MW autonomous Port of Portuguese Port of Sines and biogas from animal waste and Creation of employment Construction of about 150 small Pointe-Noire the Angolan Port of Barra Do other waste sources opportunities in the energy photovoltaic-hybrid mini-grids Construction of the new Dande industry for youth in Cabo Provision of combi-tracks solar industrial and artisanal fishing Delgado (pilot vocational energy and horticulture training initiative + EMPREGO) Regional - Sub-Saharan Africa -Regional -

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.
