

EU-Peru: country projects

#GlobalGateway #TeamEurope

March 2024

ENVIRONMENT

Improve the conservation of Peru's unique **natural heritage** and promote sustainable tourism and economic development.

Piura

Trujillo

Abancay

Arequipa

INFRASTRUCTURE

- **Electricity transmission:** construction and administration of a 500 kV substation transmission line in Piura
- **Green energy investments:** green energy investments, including decentralised energy grids in rural areas, to small and medium-sized enterprises
- **Water security for urban areas:** ensure safe drinking water and sustainable water management in Abancay
- **Sustainable and social urban housing:** facilitate access to adequate housing for low-income families (Fondo MiVivienda project)
- **Urban light train:** reduction of emissions and pollution, for instance with the Urban Mobility Plan in Arequipa
- **Bus rapid transit:** implement a bus rapid transit system via the Urban Mobility Plan in the town of Trujillo

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
