

EU-Saint Lucia: Country project examples

#GlobalGateway #TeamEurope

January 2024

CLIMATE & ENERGY

- Fostering investments in solar, wind, geothermal and green hydrogen technology
- Reducing the chronic water shortages and improving wastewater systems
- Climate Finance: mitigating or adapting to the impacts of climate change (green finance and sustainable finance)
- Supporting Caribbean biodiversity and fighting ocean pollution
- Turning Sargassum algae from a threat to an economic opportunity (e.g. biofuel, water purification, agriculture)

HEALTH

Supporting health systems resilience and the digital transformation of health facilities.

TRANSPORT

Improving maritime connectivity in the Caribbean to foster regional integration, economic growth and food security.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
