EU-ASEAN: Global Gateway

Global Gateway is Europe’s offer to its partners for smart, clean and secure infrastructures and links. It boosts sustainable investments in digital, transport, energy and climate relevant sectors and in health, education and research systems. It will help to tackle the most pressing global challenges, from fighting climate change, to improving health systems, and making economies more resilient.

#GlobalGateway  #EUASEAN

January 2024

Main Priorities in Southeast Asia:

★ Green Transition ★ Sustainable Connectivity

Key Initiatives:

- Policy dialogue on common priorities, including new EU-ASEAN dialogue on energy
- Regional Team Europe Initiatives (TEIs) on the green transition and sustainable connectivity and bilateral initiatives such as the Philippines Green Economy TEIs and Digital Economy Package
- Mobilisation of investments through the European Fund for Sustainable Development+ and the ASEAN Catalytic Green Finance Facility
- Global Gateway flagship investments from EU Member States such as Hydro Mekong (France) and the Hydropower reservoir operation in the Red - Thai Binh river basin in Vietnam (Italy)
- Transnational research and innovation partnerships under Horizon Europe
- Students and university exchanges through Erasmus scholarships and higher education programmes
- Just Energy Transition Partnerships with Indonesia and Vietnam
- Bilateral and regional agreements, including EU-ASEAN Comprehensive Air Transport Agreement and EU-Singapore Digital Partnership

Consisting of grants from the EU budget and the estimated amount of concessional finance for investment projects that will be leveraged by the EU budget and Member States’ public funding

€10 BILLION

IN INVESTMENTS MOBILISED BY TEAM EUROPE

€4.2 Billion mobilised since 2023

January 2024
**Global Gateway flagship projects in the ASEAN region**

**LAO PDR**
- Increasing investment, connectivity and trade in agriculture and forestry
- Rehabilitation of an ASEAN highway

**CAMBODIA**
- Construction of water treatment plant in Phnom Penh
- One Health for Cambodia
- Partnership in Education for green and digital jobs

**VIETNAM**
- Just Energy Transition Partnership (JETP): Construction of Bac Ai hydropower pump storage (1,200 MW).
- Upgrading of Hydropower plant Tri An by 200MV to increase peak capacities
- Construction of the Tra Vinh 48 MW nearshore wind farm

**PHILIPPINES**
- Scale up service provision from the Copernicus mirror site to provide high-speed internet capacity; Digital Economy Package to support digital connectivity, cybersecurity and 5G

**MALAYSIA**
- Development of the port of Lumut

**INDONESIA**
- Smart City connectivity in Nusantara capital city
- Investment plan via the Just Energy Transition Partnership (JETP) to expand renewable energies, phase down on and off-grid coal-fired electricity generation
- Double tracked upgrading and electrification of suburban train

**EU-ASEAN: Global Gateway**
**Green Team Europe Initiative**

**AUSTRIA**
- Data Driven Agriculture for South East Asian Rice Farmers

**ROMANIA**
- Annual contribution to AHA Centre

**ITALY**
- Sustainable agriculture and agricultural mechanization as tools to cope with climate change and food security
  - ACGF contribution (CDP)

**DENMARK**
- Regional policy dialogue on circular economy
- Waste standards and data collection methodology
- Networking and knowledge-sharing of circular economy solutions

**FRANCE**
- Projects on energy and agroecological transition, resilient urban territories, management of natural resources and DRR
  - ACGF contribution (AFD)

**GERMANY**
- Reduce, Reuse, Recycle to Protect Marine Environment and Coral Reefs (3RProMar)
- ASEAN Municipal Solid Waste Management Enhancement (AMUSE)
- ACGF contribution (KFW)

**FINLAND**
- Potential new investments

**EUROPEAN UNION**
- Green Transition Investment Programme (GTIP)

**EUROPEAN INVESTMENT BANK**
- European Union assets

**EU-ASEAN**
- Global Gateway

**EUROPEAN CLIMATE ACTION PROGRAMME**
- European Union (co-)funded contributions

**ASEAN CATALYTIC GREEN FINANCE FACILITY**
- Grants for digital environmental education in ASEAN (A-SASSY, SIMPLE)

**SMART GREEN ASEAN CITIES (SGAC)**

**TRANSITION TO A REGIONAL CIRCULAR ECONOMY**

**EUROPEAN UNION (CO-)FUNDED CONTRIBUTIONS**

**TECHNICAL ASSISTANCE FACILITY (TAF)**

**GREEN TEAM EUROPE INITIATIVE**

**GERMANY**
- Annual contribution to AHA Centre
  - ACGF contribution (KFW)

**FRANCE**
- Projects on energy and agroecological transition, resilient urban territories, management of natural resources and DRR
  - ACGF contribution (AFD)

**DENMARK**
- Regional policy dialogue on circular economy
- Waste standards and data collection methodology
- Networking and knowledge-sharing of circular economy solutions

**FINLAND**
- Potential new investments

**EUROPEAN UNION**
- Green Transition Investment Programme (GTIP)

**EUROPEAN INVESTMENT BANK**
- European Union assets

**EU-ASEAN**
- Global Gateway

**EUROPEAN CLIMATE ACTION PROGRAMME**
- European Union (co-)funded contributions

**ASEAN CATALYTIC GREEN FINANCE FACILITY**
- Grants for digital environmental education in ASEAN (A-SASSY, SIMPLE)

**SMART GREEN ASEAN CITIES (SGAC)**

**TRANSITION TO A REGIONAL CIRCULAR ECONOMY**

**EUROPEAN UNION (CO-)FUNDED CONTRIBUTIONS**

**TECHNICAL ASSISTANCE FACILITY (TAF)**

**GREEN TEAM EUROPE INITIATIVE**

**GERMANY**
- Annual contribution to AHA Centre
  - ACGF contribution (KFW)

**FRANCE**
- Projects on energy and agroecological transition, resilient urban territories, management of natural resources and DRR
  - ACGF contribution (AFD)

**DENMARK**
- Regional policy dialogue on circular economy
- Waste standards and data collection methodology
- Networking and knowledge-sharing of circular economy solutions

**FINLAND**
- Potential new investments

**EUROPEAN UNION**
- Green Transition Investment Programme (GTIP)

**EUROPEAN INVESTMENT BANK**
- European Union assets

**EU-ASEAN**
- Global Gateway

**EUROPEAN CLIMATE ACTION PROGRAMME**
- European Union (co-)funded contributions

**ASEAN CATALYTIC GREEN FINANCE FACILITY**
- Grants for digital environmental education in ASEAN (A-SASSY, SIMPLE)

**SMART GREEN ASEAN CITIES (SGAC)**

**TRANSITION TO A REGIONAL CIRCULAR ECONOMY**

**EUROPEAN UNION (CO-)FUNDED CONTRIBUTIONS**

**TECHNICAL ASSISTANCE FACILITY (TAF)**

**GREEN TEAM EUROPE INITIATIVE**
Just Energy Transition Partnerships

Vietnam

Leaders from Vietnam and the International Partners Group (IPG), including the EU, UK, France, Germany, US, Italy, Canada, Japan, Norway and Denmark have agreed a Just Energy Transition Partnership (JETP).

The Partnership, co-led by the EU and UK, will support Vietnam to deliver on its ambitious Net Zero 2050 goal, accelerate the peaking of its greenhouse gas emissions and transition away from fossil fuels to clean energy.

The JETP will mobilise an initial USD15.5 billion of public and private finance over the next three to five years to support Vietnam’s green transition.

Indonesia

The EU, its Member States, namely Denmark, France, Italy and Germany, and the European Investment Bank are a key contributor to the Just Energy Transition Partnership (JETP) in Indonesia. Together, they have pledged EUR 3.4bn to support the decarbonisation of the power sector as part of the overall USD 20bn public and private JETP pledge.

In November 2023, the Comprehensive Investment and Policy Plan (CIPP) was launched in Jakarta, a significant Global Gateway milestone highlighting the path forward for the energy transition in Indonesia.

Targets include:

- Peaking total power sector emissions by 2030, shifting its projected emissions peak forward.
- Capping power sector emissions at 290 megatons of CO2 in 2030, down from baseline value of 357.
- Establishing a goal to reach net zero emissions in the power sector by 2050, bringing forward Indonesia’s net zero emissions target by ten years.
- Accelerating the deployment of renewable energy so that it comprises at least 34 percent of power generation by 2030, roughly double the total renewables deployment currently planned for this decade.
Green Smart Cities project

The EU funded Smart Green ASEAN Cities programme supports the ASEAN Member States on a city, national, and regional level. It deals with urban environmental and climate change and related governance issues, focusing on green and smart solutions enabled by digitalisation and the use of technologies. With an EU contribution of €5.1 million, the project facilitates cooperation between cities within ASEAN and between ASEAN and European cities.

Several ASEAN cities have already been selected to benefit from the project, including Banyuwangi (ID), Banyumas (ID), Siem Reap (KH), Sihanouville (KH), Seremban (MY), Kuantan (MY) and Ipoh (MY).

Examples of Global Gateway Flagship investments from EU Member States

Hydro Mekong phase 2 Lao PDR/Cambodia/Vietnam and Thailand project (France):
Enhancing the knowledge of the hydrological profile of the Mekong River and its main tributaries to understand better the impacts of climate change.

Hydropower reservoir operation in the Red - Thai Binh river basin in Vietnam (Italy):
Investment in water resources monitoring stations to support the implementation of inter-reservoir operation in the Red River basin.
Sustainable Connectivity in ASEAN

ASEAN Sustainable Connectivity Team Europe Initiative

To enhance sustainable, comprehensive, and rules-based connectivity between the EU and ASEAN and within ASEAN itself.

- Energy connectivity
- Digital connectivity
- Transport connectivity
- Higher education / people-to-people connectivity

Trade and economic and connectivity, sustainable value chains

- EU-ASEAN Sustainable Connectivity Package under the regional MIP for ASEAN 2021-2027
- Ongoing / new initiatives and potential new contributions
- Sustainable investments including investments from EIB

Tools/Modalities: Policy dialogue, technical assistance, bank guarantees, loans, research and investment TAIEX/Twinning
Some illustrative examples of infrastructure investments in ASEAN countries are:

- Grid and road modernisation projects in Cambodia to improve the roads and improve the electricity distribution network for energy efficiency and digital transformation;

- Sustainable urban transport, irrigation systems and roads in Laos to improve connectivity and increase climate resilience;

- Solar power stations and about 60,000 home solar systems for last mile electrification in the Philippines.

- Grid and power supply, and a hydropower plant in Vietnam.

Copernicus / Digital Philippines

Copernicus is the EU’s Earth Observation Programme, looking at our planet and its environment for the benefit of Europe’s citizens. The Copernicus Philippines programme supports the development of a National Copernicus Mirror Site (data centre) to be a repository of satellite data for the Philippines. The Digital Economy Package and the Team Europe Initiative on Digital Connectivity in the Philippines, will support the Philippines becoming a digital connectivity hub in the region with and expand Copernicus in South-East Asia. Connectivity through existing cables will be enhanced to allow fast access to the national mirror site and support rapid response to disasters. The Package will also support capacity building for cybersecurity and 5G roll out.
**EU-Singapore Digital Partnership**

The EU-Singapore Digital Partnership will provide for the overarching framework of bilateral cooperation on digital issues, including digital economy and trade, trusted data flows and data innovation, standards, the development of digital skills for workers, and the digital transformation of businesses and of public services. The Partnership will enhance cooperation to make more resilient supply chains and pave the way for cooperation in new areas such as 5G/6G and Artificial Intelligence.

**The EU-ASEAN Comprehensive Air Transport Agreement (CATA)**

The EU-ASEAN Comprehensive Air Transport Agreement (CATA) will open up more air transport opportunities and enhance connectivity between the two regions. It will support the aviation sector’s recovery after COVID-19 and restore much-needed connectivity to the benefit of some 1.1 billion people, enabling greater business, trade, tourism and people-to-people exchanges. It replaces more than 140 bilateral air services agreements, providing a single set of rules and reducing red tape. It also gives a new platform to work jointly towards shared commitment to economically, socially and environmentally sustainable aviation.

**EU-ASEAN Cooperation on Research, Innovation and Education**

Horizon Europe is a transnational research and innovation programme that facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges. It supports the creation and better diffusion of excellent knowledge and technologies. Horizon Europe is open to participation from all ASEAN members.

Erasmus+ is the EU’s programme to support education, training, youth and sport in Europe.

- **Since 2014, 240** ASEAN and EU research cooperation projects were funded. Total EU Contribution: €35 million
- **Since 2014, 5.500** students and staff from ASEAN received Erasmus scholarships.
- **Nearly 3.000** European students and staff have taken up work or studies in ASEAN Member States under the Erasmus+ programme.
- **€15 MILLION** EU Support to Higher Education in ASEAN Region (SHARE) programme (2015-2022)
