

EU-South Africa: country projects

#GlobalGateway #TeamEurope

April 2024

CLIMATE AND ENERGY

Support South Africa in the decarbonisation of its economy by increasing renewable energy generation, developing sustainable green hydrogen and critical raw materials value chains, upgrading transport and logistic networks, greening service delivery in municipalities, transferring expertise to government institutions, and providing technical and vocational training.

INFRASTRUCTURE

Support the implementation of the government's infrastructure programme and contribute to addressing the constraints to infrastructure development. Efforts are directed towards upgrading roads, railways, and ports to enhance connectivity, facilitate trade, and foster economic growth.

GOOD GOVERNANCE

Improve public services in rural areas, strengthen local authorities, and ensure equitable access to essential services, thereby contributing to more effective and accountable governance.

EDUCATION

- Help establish a skilled workforce by improving:
- TVET (Technical and Vocational Education and Training) and Science Technology and Innovation to modernise and reform higher education institutions, develop new curricula and improve governance
 - Investment climate, innovative finance and support to small and medium-sized enterprises in accessing finance

SOCIAL SECTORS, WOMEN AND YOUTH

- To create economic and social opportunities to empower young businesses and aspiring entrepreneurs
- To support the fight against gender-based violence and femicide

HEALTH

Local vaccine manufacturing: support South Africa's ambition in becoming a vaccine manufacturing hub.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.
