

EU-Costa Rica: country projects

#GlobalGateway #TeamEurope

March 2024

TRANSPORT

Boosting **e-mobility** to help transform the transport sector, the primary emissions source, for decarbonisation:

- electrify approximately 1000 buses in the Greater Metropolitan Area over 5 years
- Support the development of a number of electric train projects such as the Electric Passenger Train of the Greater Metropolitan Area and the Limón Electric Freight Train (TELCA)

HEALTH

Support the development, testing and production of medicines and medical devices, while fostering human talent, legal frameworks and digital tools for better services.

San José
Great Metropolitan Area

SUSTAINABLE FINANCE

Improve access to finance and develop the green bond market, thus mobilising capital for financing and sustainable transition.

SUSTAINABLE AGRICULTURE AND FISHING

Boost **bio-inputs, organic certification and production, low carbon value chains, and circular practices** in agriculture and fisheries to enhance EU-Costa Rica trade and support the EU-Central America Association Agreement.

DIGITAL

- Supporting National Telecommunications Plan 2022-2027 for **secure digital connectivity**
- **Help finance 5G roll-out, securing networks and critical infrastructure**, including through enhanced cyber competences

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
