

EU-Namibia: Country projects

#GlobalGateway #TeamEurope

October 2023

INCLUSIVE GREEN GROWTH

Support Namibia's green transition with a focus on:

- renewable energy, reducing reliance on imported electricity, and aiming to add 100 MW from renewable sources by 2030
- green industrialisation through strategic investments in hydrogen and critical raw materials
- water and climate resilience through investments to increase inclusive access to water and sanitation services
- governance to align with EU and international environmental, social and governance standards

EDUCATION & YOUTH

- Investments to improve Early Childhood Development (ECD), including access in remote areas and enhancing the quality of teaching
- Equipping workers with the relevant skills for the green hydrogen and renewable energy sectors
- Strengthening governance, fighting gender-based violence, and supporting engagements in renewable hydrogen, mining, and oil and gas sectors

TRANSPORT

- Investing in the regional transport corridor linking Maputo, Gaborone, and Walvis Bay
- Collaborative efforts for the digitalisation and expansion strategies, respectively for the ports of Walvis Bay and Lüderitz

Swakopmund • Windhoek
Walvis Bay
Lüderitz

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
