

EVALUATION OF THE INSTRUMENT FOR NUCLEAR SAFETY COOPERATION - INSC II

KEY FINDINGS AND CONCLUSIONS

Brussels 27 March 2017

Paolo Scalia, Joseph Jehee, Evelyne Ameye, Zehra Kacapor-Dzihic, Vadim Kuzyk,
Max Hennion, Angela García-Monje, Emilie Ernoult, Irina Velska

Specific objectives

- Promoting nuclear safety culture
- Safe management radioactive waste / remediation
- Safeguards of nuclear material

Scope

- Exclude promoting use of nuclear energy
- World-wide coverage with focus on neighbourhood and pre-accession
- Almost 50% budget to Ukraine projects

The instrument fits well to its
purpose and responds to
priority needs

- INSC objectives well aligned to EURATOM priorities and directives on nuclear safety
- Interventions responding to priority partners needs
- Adequate flexibility and mechanisms to adjust the instrument to new priorities

Since 2007
a reliable instrument, with an
steady flow of relevant projects and
outputs

The project is funded by
the European Union

The project is implemented by
a consortium led by GDSI Limited

Lead implementing partner is
Altair Asesores S.L.

An instrument with distinctive and unique features

Continuity and reliability

specialized know how

a “door opener”

institutional framework

participation to G7

Safeguards support

The project is funded by
the European Union

The project is implemented by
a consortium led by GDSI Limited

Lead implementing partner is
Altair Asesores S.L.

Strategies, programming,
Action documents,
management process:

providing a coherent
framework, focused on
relevant tasks and a
performing
output delivery

Strategies, programming
and action documents
are generic, lacking of
specification,
prioritization of needs
and result orientation

Recent attention to
indicators

Overall limited
measurability at outcome
level

Absence of outcome monitoring
and external assessments

Deficits:
lesson learning

Appreciation of results

Visibility and communication

Accountability

Inadequate monitoring and evaluation arrangements

Absence of comprehensive monitoring system at level of instrument, region, country and programmes

No use of evaluations / external assessments for lesson learning and accountability

Significant contribution
to EU crosscutting
priorities:

Good governance and
environment

Good alignment to CIR

Under appreciation of
these contributions and
perception of limited
scope and relevance to
crosscutting issues

Need to reinforce
the safety – security nexus
across EU Cooperation

Limited visibility for safeguards
actions

Scope for increased attention to
good sector governance and sustainability

*Analysis,
measurability,
dialogue,
a longer-term approach*

The instrument will need
to adjust resources to strengthen quality
and
to face future challenges

The project is funded by
the European Union

The project is implemented by
a consortium led by GDSI Limited

Lead implementing partner is
Altair Asesores S.L.
