

EU-Colombia: country projects

#GlobalGateway #TeamEurope

March 2024

TRANSPORT

Support sustainable public transport transition such as the Bogota metro line 2 extension and the installation of an electric bus manufacturing plant.

DIGITAL

Increase connectivity to 85% of the population by 2026 via 3 pillars: connectivity for 'Paz Total', cybersecurity, and the creation of a space agency.

Bogotá

CLIMATE AND ENERGY

- **Green and climate finance:** development of a taxonomy for economic activities considered environmentally sustainable, and access to finance
- **Wastewater management:** Sewage Treatment Plant of Canoas as part of a public-private partnership for Bogotá
- **Green hydrogen:** development of green hydrogen production and renewable energy
- **Nature-based solutions for climate change adaptation**

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
