Global Gateway

EU-Kenya: Country projects

#GlobalGateway   #TeamEurope

October 2023

HUMAN CENTRED DIGITALISATION

- Reduce digital gap to enhance access to social services for underserved communities and bolster digital infrastructure for small and medium enterprises and social services

- Boost digital economy transformation to enhance digital skills, foster business and job creation, and leverage technologies for socio-economic benefit

- Promote inclusive digital governance to enhance online public services, ensure secure e-government systems, and protect democracy in the digital environment

GREEN DEAL

- Reduce greenhouse gases emissions with sustainable approaches to production, consumption, recycling, waste management and logistics

- Promote agri-food systems' value chains to improve livelihoods and resilience, and reduce impact on environment

- Increase generation of and access to renewable energy

- Conserve and restore natural capital and biodiversity

- Promote sustainable investments in private sectors, urbanisation, and infrastructure

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
