

EU-Mexico: country projects

#GlobalGateway #TeamEurope

March 2024

GLOBAL GREEN CHALLENGES

Address circular economy, energy efficiency, smart and sustainable urban development, and climate change adaptation and mitigation via ecosystem-based solutions.

- **Industrial parks, renewable energy and water systems** (focus 'Plan Sonora')
- Development of the **green bond market**, interoperability of EU and Mexican taxonomy, and access to finance
- **Integrated water resources management**

SOCIAL COHESION

Modernisation of tax administration, support for transparent and fair public spending system, and formalisation of employment to boost tax collection and **access to social protection**.

These outputs do not capture the whole of the Team Europe engagement in country. They capture concrete infrastructure investments under Global Gateway. They will be accompanied by soft measures in a 360° approach, so as to improve the policy, regulatory and business environment, develop skills, foster innovation and transfer technology.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
