What we do:

- Monitor and report on the implementation of the Joint Valletta Action Plan
- Create tools for, and provide assistance to, our Partners to meet this obligation

Funded by the European Union

Implemented by ICMPD

Data Collection

Mapping exercises:
- Initiatives = Projects and Policies
- Funded/adopted and implemented in Rabat Process and Khartoum Process regions
- Relating to the 5 JVAP Domains
- Stakeholder-driven

Partners collect certain information such as:

<table>
<thead>
<tr>
<th>Title</th>
<th>Country of Implementation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Start Year</td>
<td>Budget</td>
</tr>
<tr>
<td>Description</td>
<td>- More fields depending on mandates and type of initiative</td>
</tr>
</tbody>
</table>
1. DATA COLLECTION
A new data collection cycle is initiated: Focal Points voluntarily collect data internally and report it.

2. DATA ENTRY AND CHECK
Focal Points report initiatives which are checked for consistency and accuracy.

3. DATA VISUALS AND ANALYSIS
The data is extracted, organised, and made available online to all JVAP Partners.

4. DATA-DRIVEN MIGRATION POLICY
- The data substantiates reports analysing the JVAP Follow-up progress
- Enables decision makers to develop fact-based migration policies and share good practices
- Feeds data and information to the Khartoum Process and Rabat Process Thematic Meetings, Trainings and Political Meetings
- Ensures the transparency of the JVAP follow-up process, thus promoting trust building across the regions.
The JVAP database is a self-reporting tool used on a voluntary basis. By design, the dataset is a partial overview of initiatives linked to the JVAP domains and priorities. ICMPD assumes no responsibility or legal liability concerning the content of the data and its use.
